

Atlas User Guide

This atlas is organized using the Public Land Survey System (PLSS) scheme of townships, sections, and quarter sections. Township page numbers can be found on the "Atlas Index" page.

The township page numbers appear on the index page, and finer scale pages follow the numbering scheme [township page - section number]. For example, township page 8, section 1 is page 8-1. If an additional level of detail is required for the area, the section is divided into quarters, with the northeast corner being letter A, northwest B, southwest C, and southeast D. The diagram below illustrates this concept.

6	5	4	3	2	1
7	8	9	10	11	12
18	17	16	15	14	13
19	20	21	22	23	24
30	29	28	27	26	25
31	32	33	34	35	36
